

HOME OF HOPE JINJA UGANDA

NEWS LETTER

Praise God our dear Donors, Partners friends and well-wishers. I am so delighted to present to you our newsletter. Hope it finds you well.

VISION STATEMENT:

A socially accepted, included, well cared for and involved community of children with multiple disabilities to acquire self-help skills in order to live independently in Jinja and Uganda as a whole.

MISSION STATEMENT:

To enhance the health, social and economic welfare of the children with multiple disabilities through the provision of their basic needs, mental development and psycho-social

support to both the children and their care givers.

Welcome with us two children to Home of Hope family.

In just one week we received two children at the children's home. **Meet Atuhairwe Ronald** aged 2 and a half years. He has hydrocephalus, he came to live at the home after being referred by ministry of gender officials to care for him. Ronald vomits whenever given something to eat, he needs to be evaluated at cure hospital to figure out the cause. Ronald is dependent in all the daily living tasks. More therapy is needed for him to avoid secondary

disabilities.

Meet Musasizi Charles aged 1 and a half. Charles has cerebral palsy; he came to live at the home after being abandoned at our front doors at Home of Hope Jinja. On the 3/09/2018 Tuesday morning we woke up to a child being abandoned and was lying on the floor helplessly crying because of hunger and coldness that early morning. We later contacted the police officials who requested us to take on

the child as further investigations to locate his parents were

made. He has got difficulties in feeding but our team is doing enough that he improves, he is malnourished too but has already been introduced to nutritional foods. Charles is dependent in all the daily living tasks.

NUTRITIONAL SUPPORT

In order to provide a balanced diet to the children at Home of Hope on a daily basis, we have come up with a gardening project where we grow mainly fruits and vegetables. With the gardens in place, the children are

Prepared garden ready for planting.

assured of a balanced diet since these fruits and vegetables will provide the

much needed vitamins needed for growth, development and also boost their immunity.

Some of the greens planted

Steven harvesting fresh carrots for our children from the garden.

PRAYER REQUESTS

Perfect health for our children and staff at the home.

Provision in abundance to help in the smooth running of the Home.
